

Humanitarian project

1. Name of the project: "Good deed".
2. Project implementation period: 12 months
3. Organization - applicant, proposing the project: State Institution "Kobrin Territorial Center for Social Services for the Population"
4. The purpose of the project: Teaching skills and creating conditions for maximum independence and independent living of single, living alone citizens with disabilities.
5. Tasks planned for implementation within the framework of the project: <ul style="list-style-type: none">- social rehabilitation, habilitation (including the formation of self-service skills, household, communication skills);- development, formation of labor skills;- employment assistance;- development of creativity, leisure, physical culture and sports of the disabled;- creating conditions for self-realization, improving the quality of life;- adaptation of people with disabilities in modern society;- promoting the harmonization of the mental state, strengthening self-confidence;- cooperation with legal entities on the organization of independent living, employment of single, living alone citizens with disabilities.
6. Target group: single, living alone disabled people of I and II groups of working age
7. Relevance of the project: <p>About 500 single, lonely living disabled people of I and II groups of working age live in the Kobrin district. Each of them is faced with a lack of knowledge and practical skills of independent living. It is very difficult to understand what each of them feels when they find themselves without the help and participation of loved ones in their lives. Lack of certainty and confidence in the future negatively affects the psychological state of people with disabilities.</p> <p>The implementation of the project is aimed at the rehabilitation of disabled people, improving their quality of life, promoting the achievement and maintenance of their maximum independence and independent daily life, developing individual mobility and involvement in all spheres of life.</p>

8. Brief description of activities within the framework of the project:

- wiring to the building;
- building exterior and interior renovations;
- equipping residential premises with adaptive devices (furniture, household appliances, etc.);
- ensuring stay in adapted conditions;
- creation of conditions for rest and sleep, sports, cultural life, labor activity;
- purchase of specialized transport.

9. Further implementation of the project:

After the completion of the project, independent living skills training will continue for citizens with disabilities attending the Day Care Unit for the Disabled and Senior Citizens. The services of the department are used by 54 people. The number of service recipients increases from 5 to 10% every year.

10. Total funding (in USD): 160 000
